Testimonial

“ One of the major challenges facing South Australian Prison Health Service (SAPHS) is the ability to deliver medications to a complex diverse group in a difficult environment. SAPHS and HPS have worked together to develop systems which support best practice in medication management from prescribing to delivery. The introduction of the mediSACHe delivery system has had significant impact on our ability to deliver a better service to incarcerated adults in SA. ”

– Karen Harlin, Nursing Director, SA Prison Health Service
